Client Centric

Client engagement is our priority. We strive to understand every detail of your talent management goals and the objectives of your hiring managers. This client-first approach enables our recruiters to source, assess, and evaluate candidates thoroughly before presenting them to you. As a result, you receive a selection of qualified candidates who meet or exceed the job description's requirements and possess the qualities of a successful employee within your organization.

Our services

At CCS Staffing, we are your strategic partner in achieving talent management excellence. We pride ourselves on being a unique outsourced talent acquisition firm. Our full-desk recruiters focus on more than just filling positions—they aim to find the right person, at the right time, for the right role. Unlike traditional recruitment firms that simply send resumes over the wall, our team of talent acquisition professionals are deeply engaged in every step of the recruitment process. We act as an external talent acquisition arm that functions like an internal staffing team.

Our Team

Our talent acquisition professionals also leverage the expertise of CCS coaches to assess a candidate's long-term viability and potential for success at your company before submission. This additional layer of validation ensures that we provide you with the best possible candidates for long-term success.

At CCS Staffing, we look forward to partnering with you to help you achieve your business goals through effective talent management strategies.
